TESTIMONY TO ITS EXCELLENCE.

For the student, the professional man, the teacher, the school, the family, in fact, for every one who cares to add to his store of knowledge, we consider this splendid work is eminently suited.—*Canada School Journal, Toronto, April, 1884.*

There should not be a school in the Dominion, where access cannot readily and constantly be had to it.—*The Canada Educational Monthly, Toronto, Oct., 1884.*

As a defining, orthographic and pronouncing dictionary, the New Edition of Webster's Unabridged may be regarded as a standard authority in the English Language.—*The Educational Record, Montreal, Aug., 1884.*

It has always been considered a standard authority, but its value as such has been vastly increased by constant revision and the addition of much new matter. It is a work that should be in every library.—*The Mail, Toronto, February 6, 1886.*

It may be regarded as the one final authority, safely to be relied on.—*The Week, Toronto, 1884.* It has long since established its claim, past the power of even envy to dispute, to a place in the very highest ranks of such publications. Those who have given it the most careful consideration will be the most enthusiastic in its praise.—*The Globe, Toronto, July, 1884.*

The best and most useful Dictionary of the English language ever published.—*London Times.*

In journalistic work I have long kept close company with Webster's Unabridged, and regard it as the one great Dictionary of the English language.—J. E. B. McCready, Esq., Editor *Daily Telegraph, St. John, N. B.*, July, 1885.

I know of no other Dictionary which places within easy reach of the ordinary purse, such a bounty of useful and really necessary information, and which is at the same time so complete and thorough an exposition of our noble language.—Hon. John V. Ellis, M. P. P., Editor *Daily Globe, St. John, N. B.*, August, 1885.

Webster is Standard Authority with the U. S. Supreme Court and in the Government Printing Office. It is recommended by the State Superintendents of Schools in 36 States, and by the leading College Presidents of the U. S. and Canada. The sale is 20 to 1 of any other series. Every State purchase of Dictionaries for Schools has been of Webster.

For sale by all leading Booksellers. Pamphlet of Specimen Pages, Testimonials, &c., will be sent, prepaid, upon application to the Publishers.

Explanation of the Articles in the Calendar.

These pages are calculated for Toronto and Quebec, and for ordinary purposes will serve with sufficient accuracy for every city in the Dominion of Canada.

Moon's PHASES.—This Table gives the times (standard 75th meridian) when the Moon passes the geocentric longitudes of 0° , 90° , 180° , and 270° east of the sun. It gives also the times of her greatest and least distance from the earth.

TWILIGHT.—In this Table are given the standard times at which twilight begins in the morning and ends in the evening, i. e., the times when the Sun's centre is 18° below the horizon.*

NOTE.—Standard times are given in all columns headed Toronto or Quebec. In calculating, the mean time at these places has been taken at Toronto as 17m. 34s. slower, and at Quebec as 14m. faster than standard.

GREATEST ELONGATION OF THE POLE STAR.—This column gives the greatest azimuth of the Pole Star east or west from the meridian as observed at a place in latitude 45° . When the greatest elongation corresponding to any other latitude is required, the number given in the column should be corrected by means of the following Table.

Latitude	42°	43°	44°	45°	46°	47°	48°	49°	50°
1st Correction for Degrees.....	$-5' 18''$	$-3' 37''$	$-1' 51''$	$0' 00''$	$+1' 57''$	$+4' 1''$	$+6' 12''$	$+8' 30''$	$+10' 55''$
2nd Correction for each minute of latitude	$+1''.7$	$+1''.8$	$+1''.9$	$+2''.0$	$+2''.1$	$+2''.2$	$+2''.3$	$+2''.4$	$+2''.6$

The 1st correction for the degrees of latitude is to be subtracted from the greatest elongation given in the calendar or added to it, according as the degrees of latitude are less or greater than 45° .

The 2nd correction, which is always additive, is found by multiplying the number given in the third line of the Table by the number of minutes in the latitude.

$$\begin{array}{ll} \text{Thus for latitude } 43^\circ 20' \dots \text{1st correction} = -3' 37'' & \text{2nd correction} + 1.8 \times 20 = +0' 36'' \\ " " 47^\circ 40' \dots " = +4' 1" & " " + 2.2 \times 40 = +1' 28'' \\ " " 45^\circ 10' \dots " = 0' 0" & " " + 2.0 \times 10 = +0' 20'' \end{array}$$

THE PLANETS.—The local mean times of rising and setting of the five chief planets are calculated for Toronto, and are corrected for refraction. The times of culmination, although computed for the meridian of Toronto, will serve approximately for the whole of Canada. The meridian zenith distances, being designed merely to aid in finding the planets, have been given only to the nearest tenth of a degree, as seen from the latitude of 45° .

The times of the SUN'S RISING AND SETTING* are given for the upper limb, and are corrected for refraction for Toronto and Quebec.

The standard times both for the rising and setting of the Moon's centre are given for every day for Toronto and Quebec.

The column, SUN ON MERIDIAN, gives the time that a watch keeping local mean time should show when the shadow of a sun dial is on the noon mark.

MOON'S AGE.—This column shows to the nearest tenth of a day the Moon's age at Toronto mean noon.

The column, UPPER TRANSIT OF POLE STAR, shows for every day the mean time at which the Pole Star makes its upper transit across the meridian of longitude 4h. 46m. W. It passes the meridian in the morning from April 10 to October 9. It passes the meridian twice on October 10: and in the afternoon during the rest of the year.

The time at which the lower transit of the Pole Star occurs may be found by adding 11h. 58m. 2s. to the time of the preceding upper transit.

The six last columns will serve with sufficient accuracy for the whole of Canada.

* Although these times are calculated for Toronto and Quebec only, the standard times at other places differing not much in latitude from one of these places may be obtained with sufficient accuracy for ordinary purposes, by adding four minutes for every degree west of Toronto or Quebec, and subtracting four minutes for every degree east of Toronto or Quebec.

From the time of the upper transit of the Pole Star may be found the time of its greatest western or eastern elongation, by adding or subtracting the constants given in the annexed Table.

Star Table.

From the times of the upper transit of the Pole Star may be derived, with the aid of the following Table, the times of culmination, and of the rising and setting of the principal fixed stars, as seen from the parallel of 45° north latitude.

To ascertain when any star found in the following Table will be on the meridian, add the number in the left-hand column of figures to the preceding meridian transit of the pole star given in the calendar. To find the time of rising of a star, subtract the number opposite it in the right-hand column of figures from the time of its meridian passage. For the setting of a star, add the same number to the time of its meridian passage. Those stars marked (...) revolve in a circle of perpetual apparition, and do not rise or set at places in and to the north of latitude 45°.

Eclipses.

In the year 1888 there will be three Eclipses of the Sun, and two of the Moon.

I.—A Total Eclipse of the Moon, January 28, 1888. Standard 75th meridian:—

	h. m.
First Contact with Shadow	4 30'5 p.m.
Beginning of Total Phase	5 31' " "
Middle of the Eclipse	6 20'1 " "
End of Total Phase	7 9'1 " "
Last Contact with the Shadow	8 9'7 " "
Last Contact with the Penumbra	9 11'2 " "

Magnitude of the Eclipse (Moon's diameter = 1, 643). The first contact with the shadow occurs at 93° from the Northernmost point of the Moon's limb towards the East. The last contact at 74° towards the West; in each case, for direct image.

II.—A Partial Eclipse of the Sun, February 11, 1888. Invisible in Canada.

III.—A Partial Eclipse of the Sun, July 8, 1888. Invisible in Canada.

IV.—A Total Eclipse of the Moon, July 22-23, 1888. Standard 75th meridian:—

	h.	m.
First Contact with the Penumbra, July 22	9	56'9 p.m.

End of Total Phase, "	1	35'6 "
Last Contact with the Shadow, "	2	34'6 "
Last Contact with the Penumbra, "	3	32'7 "

Magnitude of the Eclipse (Moon's diameter = 1), 1.816. The first contact with the shadow occurs at 95° from the Northernmost point of the Moon's limb towards the East. The last contact at 82° towards the West; in each case, for direct image.

V.—A Partial Eclipse of the Sun, August 7, 1888. Invisible in Canada.

THE YEAR.

The length of the year is strictly expressed by the space of time required for the revolution of the earth round the sun—namely, 365 days, 5 hours, 48 minutes, 46 seconds, and 7 tenths of a second, for so such a nicely has this time been ascertained. But for convenience in reckoning, it has been found necessary to make the year terminate with a day instead of a fraction of one, lumping the fractions together so as to make up a day among themselves. About forty-five years before Christ, Julius Caesar, having, by the help of Sosigenes, an Alexandrian philosopher, came to a tolerably clear understanding of the length of the year, decreed that every fourth year should be held to consist of 366 days, for the purpose of absorbing the odd hours. The arrangement he dictated was a rather clumsy one. A day in February, the sixth before the calends of March (*sextillis*), was to be repeated in that fourth year; and each fourth year was thus to be *bissextile*. It was as if we were to reckon the 23rd of February twice over. Seeing that, in reality, a day every fourth year is too much by 11 minutes, 10 seconds, and 3 tenths of a second, it inevitably followed that the beginning of the year moved onward ahead of the point at which it was in the days of Caesar; in other words, the natural time fell behind the reckoning. From the time of the Council of Nice, in 325, when the vernal equinox fell correctly on the 21st of March, Pope Gregory found in 1582 that there had been an over-reckoning to the extent of ten days, and

now the vernal equinox fell on the 11th of March. To correct the past error, he decreed that the 5th of October that year should be reckoned as the 15th, and, to keep the year right in future, the overplus being 18 hours, 37 minutes and 10 seconds in a century, he ordered that every centurial year that could not be divided by 4 (1700, 1800, 1900, 2100, 2200, &c.) should not be bissextile, as it otherwise would be; thus, in short, dropping the extra day three times every four hundred years. The Gregorian style, as it was called, readily obtained sway in Catholic, but not in Protestant countries. It was not adopted in Britain till the year 1752, by which time the discrepancy between the Julian and Gregorian periods amounted to eleven days. An Act of Parliament was passed, dictating that the 3rd of September that year should be reckoned the 14th, and that three of every four of the centurial years should, as in Pope Gregory's arrangement, not be bissextile or leap years. It has consequently arisen—1800 not having been a leap-year—that the new and old styles now differ by twelve days, our first of January being equivalent to the 13th old style. In Russia, alone, of all Christian countries, is the old style retained; wherefore it becomes necessary for one writing in that country to any foreign correspondent, to set down his date thus:

March, or 15th September; or, it may be, 28th December, 1800.
7th October; or, it may be, 9th January, 1801.

COPYRIGHTS IN CANADA.

Copyrights may be secured by any person domiciled in Canada, or any part of the British possessions, or by a citizen of any country having an International Copyright Treaty with the United Kingdom, who is the author of any book, map, chart, musical composition, or any original painting, drawing, design, &c., upon the following conditions:—The books, maps, &c., must be published in Canada; and in the case of a work of art, it must be produced in Canada, either prior to or simultaneously with its production elsewhere. Two copies of books, maps, &c., must be sent to the Minister of Agriculture; and in the case of paintings, statuary, &c., a written description of the same must be furnished. The fee for registering a Copyright is one dollar, and it runs for twenty-eight years. It may also be renewed

for a further term of fourteen years upon the same conditions.

An Interim Copyright may be obtained, pending the publication of any literary, scientific or artistic work, by depositing in the Office of the Minister of Agriculture a copy of the title, or a description of such work. The Interim Copyright runs for one month, and the fee is fifty cents. The work, however, must be published inside the time specified, or the author incurs a penalty not exceeding one hundred dollars.

The penalty for infringing a Copyright is the forfeiture of every copy of the work to the owner of the Copyright, and the payment of a fine of not less than ten cents, nor more than one dollar, for every copy found in possession.

CENSUS OF MANITOBA.

The following figures taken from the Census of Manitoba are interesting as showing the great progress made by the Province from 1881 to 1886. This is all the more gratifying when it is remembered that since the year 1882 number of causes have conspired to retard settlement; such as a succession of poor crops, early frosts, and the North-West rebellion of 1885.

POSTAL INFORMATION.

LETTER RATES, ETC.

Canada.—Letters posted in Canada, addressed to any place within the Dominion (including Manitoba, British Columbia and Prince Edward Island), 3 cents per $\frac{1}{2}$ oz.; if unpaid, such letters cannot be forwarded, but will be sent to the Dead Letter Office. If liable to more than one rate of postage, and insufficiently prepaid, the letter will (provided one full rate of 3 cents be paid) be forwarded to its destination and double the deficiency charged on delivery. Letters mailed at any office for delivery at or from the same office are charged 1 cent per $\frac{1}{2}$ oz., and must be prepaid; otherwise they are sent to the Dead Letter Office. All postage must be prepaid by Postage Stamps.

Post Cards.—From any place in Canada to any other place in Canada or to the United States, 1 cent each. British and Foreign, 2 cents each.

United Kingdom.—Postage on Letters, 5 cents per $\frac{1}{2}$ oz., whether by Canadian or New York Steamers. If sent unpaid, double postage will be charged.

Newfoundland—Postage on Letters, 5 cents per $\frac{1}{2}$ oz. Newspapers (see "Tansient Newspapers"). Post Cards, 2 cents each. Prepayment necessary.

Bermuda (via New York).—Letters, 5 cts. per $\frac{1}{2}$ oz. Newspapers, 2 cts. each. Printed matter, 1c. per $\frac{1}{2}$ oz.

United States.—The rate on Letters to the United States is the same as in Canada, and must be prepaid.

REGISTRATION OF LETTERS.

Persons posting letters containing value should be careful to require them to be Registered, and to obtain from the Postmaster a certificate of receipt for Registration.

The charge for Registration (use Registration Stamp), in addition to the Postage, is as follows, viz.:

On Letters to any other place in Canada or British North America..... 2 cents.
On Letters for the United States..... 5 "
On Letters for the United Kingdom..... 5 "
On Parcels, Patterns or Samples, in Canada..... 5 "
On Book Packets and Newspapers to United Kingdom..... 5 "

Both the Postage charge and Registration fee must in all cases be prepaid by stamp.

Registered Letter Stamps have been issued of the denominations of 2 and 5 cents, which may be obtained at any Stamp Agency.

Registration Stamps cannot be used in payment of postage, nor can Postage Stamps be used in payment of Registration fees.

Registration is not an absolute guarantee against the miscarriage or loss of a Letter; but a Registered Letter can be traced where an Unregistered Letter can not, and the posting and delivery or non-delivery can be proven.

BOOK POST.

A Book Packet may contain any number of separate books, publications, works of literature or art, maps or prints, photographs, daguerreotypes when not on glass, or in frames containing glass; and the books, maps, &c., may be either written, printed or plain, or any mixture of the three, provided that no letter be enclosed or the writing intended to serve the purpose of a letter; and may be either British, Colonial or Foreign. No package must exceed 4 lbs. 6 oz. in weight, nor must the size exceed two feet in length, or one foot in width or depth.

Book Packets must be open at both ends or both sides, and must not contain any letter or sealed inclosure.

The rate on Book Packets between any two places in Canada, and to Newfoundland and the United States, is one cent per 4 oz., which must be prepaid by stamps.

The rate to Great Britain is 1 cent per 2 oz.

MISCELLANEOUS MATTER.

Miscellaneous matter, described as under, may pass between places in the Dominion of Canada upon payment of a rate of 1 cent per 4 oz. The limit of weight 4 lbs. The regulations of the British Post Office do not admit of the transmission by mail to the United Kingdom (or other countries beyond the sea) of miscellaneous matter as such; but a great part of the matter referred to under that head may be forwarded to the United Kingdom by Book Post.

On all pamphlets, occasional publications, printed papers, prices current, hand-bills, exhibitors' entry tickets for Dominion or Provincial Exhibitions, book and newspaper manuscripts, printers' proof sheets, either corrected or not; maps, prints, drawings, engravings, lithographs, photographs, when not on glass in cases containing glass; botanical and entomological specimens, when properly put up, so as to prevent injury to the contents of the mails; sheet music, either printed or written; documents wholly or partly printed or written, such as deeds, insurance policies (including renewal receipts when attached to the policies), letters' lists, militia and school returns, or other documents of like nature, the rate of postage is one cent for each four ounces; provided that no letter or other communication intended to serve the purpose of a letter be sent or inclosed in any such package or thing mentioned, and that the same be sent in covers open at the ends or sides, or otherwise so put up as to admit of the contents being, if necessary, easily withdrawn for examination by the officers of the Post Office to ensure compliance with its provision; if enclosed in sealed envelopes notched at the ends or sides, or with the corners cut off, letter rate of postage will be charged; and that the postage be prepaid by postage stamp or stamped post bands or wrappers in all cases. Limit of weight, 4 lbs. To all parts of Manitoba, the North-West Territories and British Columbia (except the Cities of Winnipeg and Victoria 21 places along the line of the C. P. R., to which the 4 lb. limit applies), the limit of weight is 2 lbs. 3 oz. No packet of miscellaneous matter can be transmitted by mail if it exceed 24 inches in length or 12 inches in width or depth.

Legal and commercial papers generally (including Bank Pass-Books) are liable to letter rate of postage, except when sent as parcels by Parcel Post, and the exceptions above given to matter of that class are restricted to the documents specified, such as Deeds and Insurance Policies.

NEWSPAPERS AND PERIODICALS.

Newspapers and periodicals printed and published in Canada, and issued not less frequently than once a month from a known office of publication or news agency, and addressed and posted to and from the same for transmission by mail to regular subscribers or news agents in Canada, are sent free; if addressed to Great Britain, or the United States, they may be posted by the same on prepayment of a rate of one cent for each four weight in bulk, or fraction of a pound; and such newspapers and periodicals are to be put up into packages and delivered into the Post Office, and the postage thereon prepaid by the publisher or news agent, being the sender thereof, under such regulations as the Postmaster-General may from time to time make.

On all newspapers and periodicals posted in Canada, other than those addressed to regular subscribers or news agents, from office of publication or news agency, including all newspapers and periodicals published less frequently than once a month, the rate will be one cent per $\frac{1}{2}$ oz., to be invariably prepaid by Postage Stamp.

Newspapers and periodicals weighing less than 1 oz. each may be posted singly, if prepaid by Postage Stamp per each.

TRANSIENT NEWSPAPERS.

Transient newspapers and periodicals include all newspapers and periodicals posted in Canada, other than Canada newspapers sent from the office of publication, and British newspapers posted by news agents for regular subscribers in Canada. When addressed to any place

within the Dominion, Newfoundland, or the United States, they must be prepaid the following rates by Postage Stamp:—

If weighing less than 1 oz., half a cent each.

If weighing over 1 oz., one cent per four oz. or fraction of four oz.

Specimen copies of newspapers and periodicals from the office of publication are to be treated as transient newspapers or periodicals, the rate upon which is one cent per four oz.

On transient newspapers addressed to the United Kingdom the rate will be one cent per 2 oz.—to be prepaid by Postage Stamp. Canada newspapers posted from the office of publication to subscribers in the United Kingdom—if to be sent in the Mails forwarded via New York or Boston, must be prepaid by Postage Stamp at the transient paper rate of one cent per 2 oz.; but if sent by Canada Packet, such papers may pass, as now, on prepayment by the publisher, at the time of posting, of the ordinary domestic rate of one cent per pound. Canadian Periodicals when sent by mail to the United Kingdom or to British Colonies or Foreign Countries (except the United States) are liable to ordinary book packet rates. All newspapers and periodicals prepaid at the bulk rate of 1 cent per lb., must be stamped "Prepaid by Publisher," at the Post Office where the newspaper or periodical is mailed. The English Post Office requires each newspaper or periodical to be stamped. If sent in packages the English Post Office declines to forward them.

WEST INDIES—VIA NEW YORK.

Via New York for Costa Rica, Curaçao, Letters 10 cents per $\frac{1}{2}$ oz., Nicaragua, Panama, 5 cents; via New York for Hayti and San Domingo, Letters 5 cents per $\frac{1}{2}$ oz.; via New York for Bermuda, Cuba, Jamaica, Danish West Indies and Bahamas, Letters 5 cents per $\frac{1}{2}$ oz.; Newspapers, 1 cent per 2 oz. West Indies, except where otherwise stated, postage on Letters via New York, 15 cents per $\frac{1}{2}$ oz.; Newspapers, 3 cents per 2 oz.

PATTERNS OR SAMPLES WITHIN THE DOMINION.

Patterns and Samples of Merchandise and Goods for sale, not exceeding 24 oz. in weight, may be posted in Canada, to be forwarded to any place within the Dominion, on prepayment by Postage Stamp of a rate of 1 cent per 4 oz., under the following regulations:

If such rate be not fully prepaid by the stamps affixed, the packet to be rated with the deficient postage, and a fine of 5 cents in addition.

Packages of Samples and Patterns, addressed to any place in Canada, may be registered by affixing thereto a registration stamp of the value of 5 cents in addition to the postage rate, and provided such packet be handed into the Post Office for registration.

Patterns or Samples must be sent in covers open at the ends, so as to be easy of examination. Samples, however, of seeds, drugs, &c., which cannot be sent in open covers, may be enclosed in bags of linen, or such like material, fastened in such a manner that they may be readily opened; or in bags entirely closed, provided that they be transparent, so that the officers of the Post Office may be able to satisfy themselves as to the nature of the contents.

The packet may bear on the outside the address of the sender, in addition to the address of the person for whom it may be intended; and also a trade mark or number, and the price of the sample enclosed; inside, there must be no enclosure but the samples or patterns themselves. The particulars, however, of the trade marks, numbers, and prices, may be marked on the articles themselves instead of on the outside of the packet, at the option of the sender.

Goods sent for sale or in execution of an order, however small the quantity may be, or any article sent by one private individual to another, which are not actually trade patterns or samples, are not admissible.

UNITED STATES.

Patterns and Samples of Merchandise, posted for places in the United States, will continue to be subject to the special rate of 10 cents each, prepaid by postage stamps, and must not exceed 8 oz. in weight.

UNITED KINGDOM.

Patterns and Samples of Merchandise, when addressed to places in the United Kingdom, must not exceed 8 oz. in weight, and must be prepaid by postage stamp at the following rates:—1 cent per 2 oz. or fraction of 2 oz.

USEFUL HINTS.

Register all valuable letters. Transmit money by Money Orders. Make complaints and inquiries in writing, and address the Postmaster-General at Ottawa. Preserve, and request correspondents to preserve, envelopes of mis-sent or delayed letters. Send to the Postmaster-General envelopes of letters about which you seek information or make complaint. In addressing letters add the name of the County and Province in which the office addressed is located. Place stamp on the right hand upper corner of the address side. Put your own name and full address in or on letter, to insure return if it cannot be delivered.

PARCEL POST.

The charges on Parcels by the Parcel Post to places within the Dominion, is 6 cents for every 4 oz. or fraction thereof (with 5 cents additional if Registered). No letter must be inclosed; if any discovered, the amount paid will be forfeited, and the Parcel charged at unpaid Letter rates. No Parcel must exceed 5 lbs. in weight, and must be prepaid by stamps.

Parcels cannot be transported by Post to any place beyond the limits of the Dominion of Canada (except to the United Kingdom), nor can any Parcel be forwarded to British Columbia or Manitoba (except to the cities of Winnipeg, Victoria, B.C., and places actually upon the line of the C.P.R.), to which the limit is 5 lbs., which exceed the weight the limit of 2 lbs. 8 oz.

Eye-glasses and spectacles may be sent by mail when properly packed and prepaid by Parcel Post.

PARCEL POST WITH THE UNITED KINGDOM.

An arrangement has been entered into with the Post Office of the United Kingdom for a Parcel Post, under which closed Parcels not exceeding 8 lbs. in weight may be posted in the United Kingdom, when addressed for delivery at certain Post Offices in Canada, and may in

like manner be posted at those Canadian Post Offices for destinations in the United Kingdom.

The Parcels exchanged with the United Kingdom will pass exclusively in the Weekly Mail, conveyed by the Canadian Steamers to and from the St. Lawrence in Summer and Halifax in Winter, and such Parcels cannot be sent via New York.

The Parcel Post with the United Kingdom will be governed by the following regulations:—

1. A Parcel must not exceed 3 lbs. in weight.
2. The dimensions of a Parcel must not exceed 2 feet in length by 1 foot in width or depth.
3. A Parcel must not contain any explosive, combustible, or dangerous articles, nor any article of a perishable or fragile character, nor liquids or matters likely to injure other Parcels or mail transmissions.
4. All Parcels must be securely and substantially packed and closed.

5. Each Parcel must be plainly directed, and such direction must include the name and full address of the person for whom the Parcel is intended.

6. For each Parcel the sender must fill up a Customs Declaration. On this form the sender will supply an accurate statement of the contents and value of the Parcel, also the address thereof, with signature and place of abode of the sender. The Customs Declaration must be securely affixed by mucilage or paste to the Parcel to which it relates.

As Parcels from the United Kingdom will be liable to Canadian Customs duties, and under existing regulations must be examined for the purpose by an Officer of the Customs *in the presence of the persons addressed*, it has been necessary in commencing this Parcel Post with the United Kingdom, to limit its operation for the present in Canada to Parcels addressed to or posted at places where Officers of the Customs are stationed.

For the purposes of the Parcel Post the Dominion is divided into 4 sections of about 1,000 miles each, from East to West, on the line from Halifax, Nova Scotia, to Victoria, British Columbia, thus:—

PARCEL POST CHARGE.

SECTIONS.	Rate per lb. or fraction of a lb.
A.—Maritime Provinces and Quebec	30 cts.
B.—Ontario	35 "
C.—Manitoba and N. W. Territories	40 "
D.—British Columbia	45 "

Prepayment by postage stamp is required, but when a Parcel is posted in the United Kingdom for either of the sections B, C, or D, and by inadvertence prepaid at a lower rate than that applicable to the particular section addressed, the Parcel will come to Canada, liable to collection by the Canada Post Office on delivery, of the deficient postage, and it will moreover be optional with the Canada Post Office to impose a fine in addition.

MONEY ORDERS.

In sending money by mail it is always best to transmit by Money Order, if possible.

COMMISSION ON MONEY ORDERS.

On Money Orders drawn by any Money Order Office in Canada on any other Money Order Office in the Dominion, the Commission is as follows:—

If not exceeding	\$4.....	2 cents.
Over \$4 not exceeding 10.....	5 "	
" 10 " " 20 "	10 "	
" 20 " " 40 "	20 "	
" 40 " " 60 "	30 "	
" 60 " " 80 "	40 "	
" 80 " " 100 "	50 "	

No single Money Order, payable in the Dominion of Canada, can be issued for more than \$100; but as many of \$100 each may be given as the remitter requires.

A SYMPOSIUM ON
COMMERCIAL UNION BETWEEN THE UNITED STATES AND
CANADA.

AFFIRMATIVE—ERASTUS WIMAN, ESQ.

It is safe to say that no single question has been so much discussed in the Dominion of Canada within the past year as the proposal of a Commercial Union between the United States and Canada. In Ontario, especially, the subject has occupied a place more prominently in the press, and among the people, than any other topic; and while in other Provinces the matter has not been so actively promoted in the shape of public meetings, resolutions, or organization, etc., nevertheless, the subject has been to a greater or less extent before the people, both in the press and in private discussion. The question has the merit up to the period of this writing of being comparatively free from party bias. The men who have been most active in promoting the discussion, either have not been pronounced politicians, or where prominent party men have discussed the question, they have been adherents of either one or the other of the great political parties that divide the Dominion. In the country localities this has especially been the case; and where political leaders have not interfered, and where the people, themselves, have been allowed to choose their own path, the party lines have been less observed than almost ever before in the discussion of a semi-political subject. Tories and Liberals have ranged themselves side by side in favor of the proposition in the newspapers and in public meetings; while in the press and elsewhere, the discussion has been carried on against it with equal vigor by representatives of both parties. In view, therefore, of the wide-spread interest attaching to this movement, and its non-partisan character, one of its most active advocates has been asked to contribute to these pages the arguments in favor of the proposal, which he has endeavored to do as follows:—

Commercial Union between the United States and Canada is a singularly simple proposal, but with consequences of the most far-reaching character. Its simplicity consists in the proposition that there should be no Custom-houses between the two countries, but that trade between them should be just as free as the trade between the States themselves, or between the Provinces themselves. At present an imaginary line of nearly 4,000 miles in extent, exists right through the middle of the Continent, over which products or merchandise of one country cannot come or go to the other without the intervention of the Government, and the exaction of a high rate of duty. The operation of this tariff of duties has a familiar illustration in the case of a farmer who has a thousand bushels of barley to sell. He can only find a market for this product in the United States, but before it

enters that country a charge of \$100 is made by the United States Government in the shape of a duty of 10 cents per bushel. The farmer in the United States gets the same price and pays no duty, and hence is \$150 better off than the farmer who grew the barley in Canada. If, with the money received from the barley, the Canadian farmer buys a thousand bushels of corn, which he cannot grow to advantage in many parts of Canada, and which he can use to advantage in feeding his pigs, his poultry, or his stock, he has to pay \$750 to the Canadian Government for the admission of the corn into the Dominion. Whether the Canadian farmer pays both duties or not in this case matters not, for he himself has decided that if he goes again to the United States with his pigs, fattened by the corn, and pays a heavy duty for the admission of the pork, and buys with what remains merchandise in the shape of clothes for himself or dresses for his wife, and pays a heavy duty to the Canadian Government on these goods as he returns home, he will have but little left in the shape of principal, much less of profit, if he continues in this line of business. In other words, the operations of the two efficient Governments, which guard this imaginary line are to rob him of the fruits of his toil, and to entirely discourage him in his attempts to trade with his rich and prosperous neighbor. The same condition applies to everything the farmer has to sell, except his eggs, his poultry, and his fruit. These being admitted free into the United States, serve to illustrate the other side of the question, and show how advantageous is the operation of an open market for the Canadian farmer. Eggs, formerly dutiable, but now free of duty, from being one of the most insignificant products, have become one of the most important, because of their freedom of admission to the United States. The enterprise of egg merchants, mostly Americans, or employed by them throughout the Dominion in gathering in eggs from all quarters, has been stimulated by the good prices and the profits to be realized in the United States. The yearly export of eggs has, therefore, risen to no less than fourteen millions of dozen, and the money realized in one year by Canadian farmers for this comparatively trifling article, foots up to over \$1,800,000. This sum approaches the amount realized from the total export of manufactures, and the point is made, which the farmer greatly appreciates, that the unobtrusive, unprotected hen has done quite as much for the country as the pampered, protected manufacturer, to support whom the farmer is heavily taxed.

farmer is heavily

of Canada to the

at consumptive markets at the manufacturing centres of the United States; and the twin, right on the long border-line of the Dominion, of the greatest money-making, money-spending aggregation of humanity under the sun, is it any wonder that there is so strongest desire on the part of the Canadian farmer to have free access to this market for his products? To be shut out from this market is to be shut out from the best opportunity he will ever have for making money. It is true the farmer has a free market in Great Britain, and in neighboring provinces. Great Britain is 3,000 miles away, and gets only three or four out of a dozen products which the farmer can profitably grow, all which, being furnished by all the world wide, realizes so small a price as to render it impossible that profit should be made on these products. As to the demand from the neighboring province, they all grow very much the same thing; and if they do not are too remote to purchase what the farmer has to sell. With abundant power to produce, unlimited spaces, now waste, ready to be covered with crops if profitable; with a strong soil, great climatic advantages, the best breeds and varieties of animals; ample supplies of implements, and above all, a thrifty, industrious and economical people, there is no reason why the largest success should not be achieved by the Canadian farmer, if the vast market on his border is only freely opened to him. To accomplish this most desirable result is the one object sought by Commercial Union. With that object in view, plainly set forth before the farmers of the Dominion, it is not surprising that the movement has been popular among them, and that there is a settled determination that if it can be honorably achieved and consistent with loyalty to British institutions, it is the one thing above all others that they desire.

When it is recalled that upon the farmer, and upon the farmer alone, depends the prosperity of nine-tenths of all other interests, it is clear that what benefits him is of enormous importance to the rest of the community. No one is better calculated than himself to judge to what extent these benefits may come from an open market among the neighboring people for a great variety of products which he now grows in limited quantities, regulated by the home market, to which alone he has access, thus, if in addition to a free and enlarged demand for eggs, poultry and fruit, he could sell without double taxation, increased quantities of butter, cheese, potatoes and other root crops; lambs, sheep, wool, oats, barley, horses and all grades of cattle, he would be far less dependent on wheat and its far away Liverpool market, competed for by all the world, and yielding no profit whatever. No country under the sun can grow to greater advantage the products above enumerated; no aggregation of people are by thrift, industry and skill better qualified to produce them at a

minimum of cost, than the farmers of Canada. While, on the other hand, in all the world there is to be found no better market for these very products than is afforded in the chief centres of population in the United States, so readily and so easily and cheaply reached from Canada. This conjunction of affairs, coupled with the struggle which the Canadian farmer has had to endure, from increased taxation, limited or distant markets, heavy mortgage and store indebtedness, and a general depression in agricultural circles, leads him to look upon Commercial Union with the United States with great favor, as it promises him about the only hope that brightens his prospect. With this conviction settled and determined upon in the minds of the vast mass of the farmers of Canada, politicians may well take Commercial Union into account as a factor of consequence. For as the farmers, by a great majority, hold the key to the political condition of affairs, their wishes and their interests must be paramount among their representatives, especially when the object to be accomplished for their lasting benefit has no political significance, except such as political leaders themselves unwisely impart to it.

But aside from the interests of farmers and the creation of a direct market for a greater variety of products, there are numerous other considerations urged by the advocates of Commercial Union in its behalf. Perhaps the next most important claim for it is, that by an open and free market in the United States, a great development would follow in numerous natural products which are now yielding a very meagre return. Thus, in iron, copper, nickel, lead, coal, and other minerals the development is extremely slow, notwithstanding the fact that Canada is exceedingly rich in all these most important products. In the article of iron the increase in its production, manufacture, and consumption on this continent is almost phenomenal; yet Canada, with miles and miles of the best qualities of ore, gets no benefit whatever. While on the southern shores of Lake Superior, in the United States, there is the greatest activity, and the expenditure of millions and millions of dollars yearly; on the northern shores of the same great body of water, within the Dominion of Canada, not a dollar is being expended. While in the southern states, as in Alabama, Tennessee, and elsewhere, development in iron mines within the past five years has been enormous; in the north, in Canada, the only sign of change in this regard has been that every farmer and every mechanic has had a fresh increase in his taxation for the iron that he uses. Why should the low grade ores of the south, loaded with phosphorus, have development, and the high grade, bessemer steel ores of Canada, almost free from phosphorus, lay silent, and dormant, and dead? Simply because in Canada there is not a market large enough to encourage the proper development of her vast mineral deposits. Simply because the great market to

the south is as closely sealed to her as if it were ten thousand miles away. When one recalls the marvellous combinations of materials favorable to iron development in Nova Scotia ; the enormous deposits in the vicinity of Ottawa, in Quebec ; the miles and miles of splendid ore along the valley of the Trent ; the riches on the lines of the Central Ontario Railway, the Kingston and Pembroke, and the vast mineral wealth made accessible by the opening up of the Canadian Pacific, in the northern regions of Ontario and Algoma, it seems as if the one thing needful now is to break down the barriers that shut out all these great resources from their natural market, and give free access to the people whose wealth, enterprise, and absorptive power have been provided by Providence for the full development of these great natural riches. If by Commercial Union between Canada and the United States, the mineral resources of the northern half of the continent should be developed with anything like the rapidity that has prevailed in the southern half, the whole commercial aspect of Canada would be changed. Not only would a great home market for farmers' products be thereby created, but the mechanic, the manufacturer, the merchant, the banker, the forwarder, the railways, and every other interest would be benefited. With development of resources, other than that of the farmer and the manufacturer solely dependent upon him, would follow in time the opening up of mines, the employment of large bodies of miners, the growth of manufactures for the supply of machinery, and other needs ; the possible erection of manufactures of the raw material developed, and the thousand and one possibilities growing out of greatly enlarged opportunities, resulting from development of natural wealth and large investment of capital on the one hand, and an open market among a great and prosperous nation for these products, on the other.

Space prevents further allusion to other advantages which Commercial Unionists claim would flow from the realization of their proposal. Those who are most active in promoting the scheme maintain that it would completely remove all desire for annexation ; and that British connection would by this means be perpetuated much more firmly than under existing conditions. It is argued that there is no attraction whatever in annexation except such as the material advantage furnishes ; and that inasmuch as all the material advantages of a connection with the United States would be obtained under Commercial Union, the only argument in behalf of a political union would be extinguished. The reciprocity treaty which was in operation for twelve years yielded, it is claimed, enormous advantages to Canada. Commercial Union, it is claimed, is but an extension of the principles underlying that treaty, and it is urged if during that period there was little or no talk of annexation, there need be no expectation that a sentiment in its

behalf would be created by a repetition and an extension of its principles. It is claimed that prior to the enforcement of this treaty, or from 1849 to 1854, there was a strong annexation sentiment ; and that in recent years, since the repeal of that treaty, there has been a steady growth in numbers, influence, and boldness of the annexation party. It is claimed that all this would disappear, if no argument in behalf of a political union could be adduced, and especially if prosperity, and enlarged area of trade, and great natural development followed the adoption of Commercial Union.

The discrimination against English goods by exacting a heavy rate of duty, and the free admission of American goods, it is urged is disloyal to England. It is shown, however, that inasmuch as the total imports from England are about forty millions, the profit to the English manufacturer thereon being about ten per cent., yields four millions. It is urged that supposing English importations were cut down one-half, the loss to English manufacturers would be only two millions a year. A sum regarded as a mere bagatelle, compared with the advantages which Canada would obtain by a free market in the United States, and the free admission of her goods. The question is not inaptly asked,—Is Canada to forever remain an undeveloped continent, without access to the vast markets at her border, for the mere sake of furnishing two millions a year of profit to individuals who have no possible interest beyond making money out of her disability ? It is further urged, that inasmuch as nearly all the money used building the railways and public works ; all the governmental and mortgage indebtedness of Canada, is supplied by England, that the owners of this money would be immensely benefited by the improved condition of affairs in Canada ; that the railways would earn more, that the farmers would be better able to pay interest, and that every liability of the country would be immensely improved in value by the prosperity that would follow Commercial Union ; and that in this sense English interests would greatly advance. So that the prosperity which it is claimed would follow to Canada by Commercial Union would affect advantageously a class of British parties interested in Canada, as would greatly exceed the manufacturers adversely affected.

The details of the plan of Commercial Union between the United States and Canada, so far as they have been developed in public speeches and prints, are as yet meagre, they imply that there being a common or uniform tariff levied throughout the continent on imported goods, and excise duties of precisely the same height exacted, that a common purse should hold the proceeds of both these sources of revenue. That at the end of each year a division of these proceeds should take place to each County, in proportion to population, it is maintained that this sum would yield to Canada as large

by a repetition and ciples. It is claimed entment of this treaty, here was a strong am- that in recent years, treaty, there has been members, influence, and nation party. It is could disappear, if no political union couldly if prosperity, and and great natural de- adoption of Commer-

revenue as she now possesses, and if there should be any deficiency it should be collected by taxes of some other character. The general principle upon which this scheme of revenue is urged is that whatever is sufficient to pay for the expenses of Government in the United States, ought to be sufficient to pay for the expenses of Government in Canada. That the bargain would be very advantageous to Canada because the extravagance of people in the United States, is notably larger than that of people in Canada; while the growth of

population in Canada, from the stimulant that enlarged markets and natural development, would give, ought to make the arrangement an extremely favorable one for the Dominion.

The whole subject, however, is in a very crude condition; and the foregoing attempt to give a sketch of its salient points is submitted with considerable hesitation and doubt, it being difficult to apprehend all the bearings of the matter, because of the magnitude and many-sided nature of the question.

NEGATIVE—H. E. CLARKE, M.P.P.

The question of a Commercial Union with the United States has been much discussed during the year, and threatens to occupy a prominent place in the discussions of the future. It has met with considerable support from the Farmers Institutes in some parts of Ontario, and generally with the opposition of the mercantile, the manufacturing, and the trading classes in all parts of the country.

So far it can scarcely be said to have come within the region of practical politics because, though pressed, in some quarters, with an urgency not easily understood, and with an ability worthy of a better and more patriotic cause, it has failed to gain a hold upon the people. No party cares to adopt it. No leader is bold enough to commit himself to its inevitable result and declare for annexation naked or veiled. But just outside the political net, the loose fish of party are nibbling at the bait as if it might some day serve a useful purpose, and as their leaders from a distance look on with "a smile that is child-like and bland," it requires but little skill in prophecy to predict, that at no distant day, whether for good or ill, the question is destined to play a considerable part not only in determining the fate of parties, but in determining the future condition of the country.

In view of these facts an examination of the question will not be without interest and it is proposed in this article to state with fairness and strict impartiality the arguments that can be advanced in opposition to the proposed union. In doing this it will be necessary to glance at the main features of the policy as it affects the people in their agricultural pursuits, in their manufacturing industries, in their trade and commerce, as well as in their political relationships as Canadians and as members of the country world in value by the proposed Commercial Union; English interests would that the prosperity would follow to Canada by affected advantageously interested in Canada, and the manufacturers

of Commercial Unions and Canada, so far developed in public speeches or orations, they imply that a uniform tariff levied on imported goods, precisely the same height, a purse should hold the sources of revenue for a year a division of these to each Country, it is maintained held to Canada as large

present tariff. The people of the United States are represented as eagerly anxious to spend an untold wealth of money in becoming the possessors of the farm products of Canada. So anxious are they to secure these products that they are willing to pay fabulous sums for their possession—two dollars a pair for chickens and a corresponding advance on everything the Canadian farmer can raise. High prices are no object with such millionaires, only break down the tariff and let them have Canadian goods, that is all they want. What care they for the price so long as they can have that which they so much desire? They are waiting by the million, by the tens of millions to turn the stream of their riches into the pockets of the Canadian farmer. It is a pity that arguments such as these should be permitted to insult the intelligence of the Canadian people, but a thousand times more pitiful that owing to the favor with which they have been received in some quarters, it should be necessary to waste a moment of time in calling attention to their ridiculous assumptions.

Surely the most ignorant farm boy that ever took up an axe in the backwoods of Canada, will be quick to see at a glance, that if the Americans are burning with a desire to possess our goods, and care nothing for the price, then they will not be hindered in their tastes or appetite by the paltry pittance collected at the border by way of Customs dues. The utter dishonesty of all such arguments becomes apparent, when it is remembered that the Americans are pre-eminently an agricultural people, and that from the product of the farm, they raise for exportation, more than is raised by Canadian farmers for export and for home consumption both put together. This is carefully concealed by the advocates of Commercial Union, when addressing the farmers of Canada, but it is not so concealed when they address themselves to the farmers of the United States. No one doubts that the American farmer would be only too glad to find a Canadian market for the surplus product of his farm, and it is not to be wondered at that American orators from Ohio and New York should use their best talents in the effort to remove the tariff that bars their product out of Canada. But that Canadians, and especially Canadian farmers, should lend them-

COMMERCIAL UNION A MENACE TO FARMERS.

Finding no support from the mercantile and manufacturing interests of the country, the advocates of Commercial Union direct their attention chiefly to the farmers, and hope by appealing to class interests, to enlist the sympathies of a large and influential body of men in favor of the movement. The most astounding statements are made as to the effects that will follow upon a repeal of the

selves to such insidious efforts, and invite such dangerous competition, is a something altogether beyond the comprehension of ordinary intelligence. Many, no doubt, are led away by the unblushing assertions of the wild theorists, who assume that Commercial Union will open up to the farmers of Canada an immense market for all their products, and who paint in glowing colors a picture of the wealth that may be secured by throwing down all the barriers of trade, and gaining access to a market of fifty millions of people. This market of fifty millions is the great theme of the Commercial Unionist, when addressing the farmers of Canada. But he never tells the farmer that the fifty millions will become competitors as well as consumers, and that while the five millions of Canadians are looking for a market in the United States for their surplus product, fifty millions of Americans will be over running Canada with the surplus product of the United States.

It will be necessary in this connection to look for a moment at the enormous value of the trade controlled by the agricultural classes in Canada, then, by looking at the markets upon which they must rely for the consumption of their goods, it will be seen, that either through ignorance, or of a set purpose, an effort is being made to get the farmers of Canada to throw open their best market to their most dangerous competitors.

THE ANNUAL VALUE OF ALL FARM PRODUCTS in Canada is estimated in round numbers at \$400,000,000. Where does the farmer find his market for this enormous yield? Who are his best customers? These are vital questions to the farmer, and the answer, taken from the trade and navigation returns for 1886, is, perhaps, the best answer that can be given to the assertions of those who claim that Commercial Union will better the condition of the Canadian farmer. Facts, they say, are stubborn things and figures are sometimes just as stubborn as facts. Let us examine a few figures bearing on the question, and see if the farmer in an effort to secure a doubtful trade of inconsiderable amount does not risk the loss of the only trade, which to him is of any real value. Who are his best customers? Undoubtedly, those who buy most of his produce. Where are they to be found? Here is the answer from the official returns of 1886:—

Exports of all animals and all farm products

To the United States.....	\$ 15,500,000
To Great Britain	22,000,000
To all other Countries.....	2,500,000
CONSUMED IN CANADA	360,000,000

Total \$400,000,000

This shows at once where the farmer finds his best market. Out of a total product of \$400,000,000, no less than \$360,000,000 finds a ready sale in Canada. How many farmers have we in Ontario, who have counted the cost of opening this market to their competitors in the United States? How many who

fully realize that their best customer is at their own doors, that they have only to hand their produce over the fence. The cities towns and villages everywhere springing up a manufacturing industries increase, these are what he must rely upon for the consumption of his goods, and they help him to consume fully nine-tenths of all he can raise on his farm. His surplus stock for which he must find foreign market amounts in value to only \$40,000,000.

This the most important feature of the whole case seems to be altogether over-looked as the question of Commercial Union is discussed; that nine-tenths of the produce of Canada is required to meet the wants of the Canadian people, and that as population increases by the spread of manufacturing industries, the day is not far distant when it will tax the best energies of Canadian farmers to produce enough for home consumption. And yet this is what should constantly be kept in view. At present over and above what is required for the home market the farmer has a surplus of \$40,000,000. How is he to dispose of this? The figures given above show that Great Britain consumes \$22,000,000; the United States \$15,500,000, and all other countries \$2,500,000. Next to Canada, Great Britain offers to the farmer the best market, and yet the American orators and Americanized writers, try to persuade him to discriminate against England and close that market for the sake of the market he finds in the United States. Now the question is, what risk will the Canadian farmer run in seeking to secure an American market for the whole of his surplus product, if he prefers that market before all others? To answer the question it will be necessary to present some figures giving the productive capacity of the American farmer, as it is with him that the Canadian farmer must compete if he wants to gain a larger access to the American market.

The annual value of all farm produce in the United States is variously estimated at from \$2,500,000,000 to double that amount, the gross product is of little importance as it is with the surplus product we have more particularly to do, and that surplus we have from the official records. The annual export of animals and farm products from the United States amounts in round numbers to \$550,000,000. So that after supplying the home market the surplus product for which the American farmer must find a foreign market, and which must come into competition with the Canadian farmers surplus, not only equals that surplus, but actually exceeds by \$150,000,000 all that is produced by the Canadian farmer whether for home consumption or foreign sale.

BARRED OUT OF THE CANADIAN MARKET by the tariff against which all the assaults of the Commercial Unionists are hurled, the American farmer has to go elsewhere to find a market for this surplus of \$550,000,000. Take down the tariff wall and he would find at his doors a Canadian market consuming an annual product

for the possession of this market, which at
present is secured to the Canadian farmer by
the tariff which he is so earnestly urged to

greatest risk, the Canadian taking down his
tariff wall and opening his market to a surplus
farm product of \$550,000,000 or the American
removing his wall and opening his market to a
surplus farm product of \$40,000,000.

The mere statement of the question ought to
satisfy any Canadian farmer of the tremendous
danger he incurs by tampering with the ques-
tion of Commercial Union. The movement in
favor of this union will not succeed, and does
not deserve to succeed. Its appeals to the
farmers are not honest. All the dangers that
lie hidden in the policy are carefully concealed,
while the advantages are exaggerated where
they are not invented. Reference is frequently
made to the prosperity of the farmer under the
last treaty of reciprocity, and no one denies that
a well considered treaty could be made
mutually advantageous to both countries, but
even here there is a want of candour and a
partial concealment of the truth for it must be
borne in mind that the prosperity of the
period covered by the last treaty of reciprocity,
was not due to the treaty alone, but to
other causes co-incident with it in point
of time. The enormous outlay on the great
public works of that day—the construction of
the Grand Trunk and Great Western railways—
would be sufficient to account for the abnor-
mally high prices which prevailed. The out-
break of the Crimean War, the Indian Mutiny,
the rebellion of the Southern States any one
of these would have a tendency to enhance
the value of anything we had for sale and to
enrich the people of Canada had there been no
reciprocity treaty in existence. The stagnation
of trade in 1857 following immediately on
the completion of the great public works
spoken of above, and the termination of the
Crimean War and Indian Mutiny shows how
little reliance can be placed in reciprocity
treaties alone for the prosperity of a people.

No, our Canadian farmers are not dependent
upon any treaty of reciprocity with their neighbors.
As a class they have done well and are
doing well. A body of men that have a thou-
sand millions of dollars invested in farm lands
and stocks is not a body that can be called poor,
and yet we have impudent men going about the
country holding meetings, making speeches and
publishing to the world that the Canadian farmer
is miserable and wretched and poor and
blind and naked. It will be for the farmers
when they get the opportunity to hurl the false-
hood back in their teeth.

COMMERCIAL UNION A STAB AT NATIVE INDUSTRY.

It is admitted with something of a brutal
frankness on the part of Commercial Unionists
that the measure would seriously cripple most

of our manufacturing industries, while it
would utterly destroy some of them. The
admission has a terrible significance when it is
considered that about one-fourth of the popula-
tion of the Dominion is dependent on these
industries for their daily bread, that the capi-
tal imperilled is estimated at \$200,000,000, and
that the wealth created by this invest-
ment of capital is somewhere in the neighbor-
hood of \$500,000,000 a year. Terrible as well
to the farmer as to the mechanic, seeing that
the destruction of these industries is the
destruction of the farmers best market for the
product of his field. And, undoubtedly, all
of these interests would be placed in deadly
peril, if brought into unrestricted competition
with the larger capital, the costlier plant, and
the more thorough division of labor that is
to be found in the immense establishments
that have been built up by the accumulated
wealth of the American people. It may suit
the philosophical theorist to sneer at the
Canadian mechanic, and say that if under the
condition of things proposed, Canadian manu-
facturers cannot compete with their more
powerful neighbors, then that they ought to
make way for the invaders, and allow them to
have undisturbed possession of the Canadian
market. But this is not the language of
patriotism, nor is it the way to build up a
nation or a people. No nation can exist
without its manufacturing industries, and as a
rule these only grow with the growth of the
State, keeping pace with the advancing wants
of the people. While they are in their
infancy, it would be unreasonable and unjust to
ask, that before they had time to develop
their strength they should be brought into
competition with the more powerful organiza-
tions of a stronger State. Hence, the protec-
tion they find in the tariff laws of all civilized
nations. Canada in this particular has only
followed in the footsteps of the wise. It does
not follow as Commercial Unionists affirm,
that Canadian prices are higher, or that the
consumer pays more for his goods, while the
tariff wall protects the manufacturer from the
powerful combinations of a foreign country.
The competition of Canadians with Canadians
must always regulate the market, and keep
prices at the lowest figure. So true is this,
that as a matter of fact it is known, that
in nearly every staple article of manufacture
prices are lower to-day than when a protec-
tive tariff was introduced to give encourage-
ment to native industries. Canada has greatly
prospered under the wise encouragement given
to develop her resources, and the benefit has
not been confined to any one particular class,
it extends to every class in the community.
The people are benefited, because they are
getting their goods at a cheaper rate. The
manufacturers are benefited, because the pro-
tection gives Canada to the Canadians, and
there is market enough here to encourage
enterprise. The mechanics are benefited, be-
cause the establishment of industries in our

midst gives them constant employment. Tradesmen reap the benefit, because mechanics must be fed and clothed, and for this purpose their money is freely spent among the different trades. Wholesale merchants are benefited, because they supply the tradesmen with the goods retailed to the mechanic. The whole Province, the whole Dominion is benefited, because we keep our people and our wealth in our own midst, and do not send them to add to the strength and wealth of a foreign country. This is the only policy that will build up a people, and fit them for a place in the rank of nations, and this is the position to which we aspire. Canada is a country of vast extent and unlimited resources, the value of which her people are just beginning to realize. Much has been said about her debt, and the fashion of annexationists is to harp upon the increase since Confederation. It is perfectly true that the debt of Canada has increased since Confederation. It has increased enormously. So has Canada increased since Confederation. Canada has increased enormously. Then we were four Provinces, with a total area of three hundred thousand square miles. Now we are seven Provinces and four territories, with a total area of three millions of square miles, and for every dollar of debt, Canada can show more than an equivalent asset. Her people have taxed themselves freely to enable her to develop her vast resources, spending immense sums on canals, railways and other public improvements. Now, when the completion of our great National highway is opening up to us every day new markets for the products of our industries, and the world stands astonished at Canadian enterprise, we do not propose to take a backward step, either at the bidding of false friend or open foe, and yield to our neighbors the fruit of our sacrifices just when it is ready to be plucked.

COMMERCIAL UNION ANNEXATION IN DISGUISE.

In matters of great political moment, it is not wise to accept as gospel every doctrine propounded from our platforms by strangers and foreigners, whether imported for the purpose, or coming themselves on a voluntary pilgrimage. It will be wiser to be guided by the common sense that influences us in the every day occurrences of ordinary life. If a new teacher presents himself, our first question will be as to his credentials. Who is he? By whose authority does he come? How does he propose to accomplish his purpose? These, or like questions will naturally occur to the mind as we listen to his arguments, and before his teaching is allowed to have weight, wise men will have to be satisfied that his object is high, or holy, or patriotic, or good, according to the doctrine he undertakes to teach. Now, apply the test to the question of Commercial Union, and see what the result will be. Who are the apostles of the new creed? And what is their mission? Ten years ago all the argu-

ments that are now doing duty in favor of Commercial Union, were advanced to prove that "Canadian nationality being a lost cause, the ultimate union of Canada with the United States appears now to be morally certain."

There stands the declaration of the chief apostle of the new creed, there is no pretence about it, no beating about the bush, it is annexation pure and simple. That was his teaching when he wrote the article for the Fortnightly Review "On the Political Destiny of Canada," and that is his teaching to-day. In his opinion annexation was morally certain ten years ago. It has not been accomplished yet, and seems as far off as ever, not, however, for want of effort on the part of the Seer, who prophesied the dismemberment of the Empire, for he has strained every effort to bring about the desired result, and now he lends his rare literary talents and scholarly attainments to the cause of Commercial Union, as a step towards the fulfilment of his ancient prophecy. The other two apostles of the new creed are American citizens, one from Ohio, and the other from New York, who, however, respectable and honored in their own country, are certainly not the men who would be selected to formulate a policy for the Canadian people. If they are honest and true to the land of their birth, or the land of their adoption, then the policy they advocate will be in the interests of the United States, or in the supposed interests of Canada as a part of the United States. To suppose they would advocate a policy in the interests of Canada, as distinguished from the United States, would be to argue that they were traitors to their own country, and untrue to their own people. Now, we are not a part of the United States, and we do not intend to become a part of the United States. When the time comes to sever our connection with the Mother Land, it will be to set up for ourselves, not to become a part of the neighboring Republic. And whether we set up for ourselves, or remain a part of the British Empire, we have interests and hopes and aims that belong to us as a people, separate and distinct from the people of the United States. We ought, therefore, to look to Canadian leaders for a policy, not to an Ohio statesman, or a Staten Island politician. But Uncle Sam has more ways than one to carry out the Monroe doctrine, and if Commercial Union is looked upon with the gravest suspicion by all true Canadians, it is because its advocates are either American citizens, or men not known for their loyalty to Canada, or Canada's connection with the British Empire. Commercial Union discriminating against the commerce of England, with a tariff framed at Washington, means political union, no matter how the pill may be sugar-coated, and if that is not what the quack doctors mean, who present the pill, then they are dealing in drugs, whose properties they themselves do not understand, and are as likely as not to be

duty in favor of advanced to prove being a lost cause, da with the United orally certain."

ation of the chief here is no pretence at the bush, it is ile. To suppose icy in the interests d from the United me that they were try, and untrue to we are not a part of e do not intend to ed States. When ur connection with e to set up for our part of the neighborher we set up for art of the British and hopes and aims people, separate and the United States. look to Canadian an Ohio statesman, n. But Uncle Sam to carry out the commercial Union is est suspicion by all use its advocates are or men not known a, or Canada's conEmpire. Commer against the com a tariff framed at al union, no matter coated, and if that ctoctors mean, who ey are dealing in ey themselves do s likely as not to be

administering poison to their too confiding patients.

ANNEXATION WOULD BE PREFERABLE TO COMMERCIAL UNION, if the choice had to be made between the two, because then as a State, we would at least have a voice in framing our fiscal policy, while under the union advocated, we would be voiceless and powerless, a dependency and not an independent State. That is not the position any Canadian, worthy of the name, would wish to see his country occupy. No one dare preach annexation openly in Canada, but any mischief maker can lend his influence to sow the seeds of dissension wherever they are likely to grow. Any agitator can help to create discontent, which may be turned to disaffection, and that seems to be the main business of the Commercial Unionist at the present time. In what other way can we account for the determined and persisting attempts that are made to write down the trade, the commerce, the manufacturing interests, and the credit of the country? and to write them down in the face of all the evidence. Column after column is written to prove that the country is staggering under a load of debt that threatens to mortgage every taxpayer beyond the possibility of redemption. And yet the writers know that so lightly do the taxes press upon us, that it is extremely doubtful, if from one end of the land to the other, there is a single taxpayer who is conscious that he carries them to the extent of a feather's weight. Article after article is published to prove that the public accounts of the country point always and only towards insolvency and ruin. And yet the authors know that the financial barometers of the Old World—the recognised standards everywhere—show its credit higher than it ever stood before. Writers and speakers teach and preach that poverty's gaunt and ghastly form is everywhere seen throughout the land. And yet the deposits in the savings banks have never reached so high a point. Everywhere, and at all points they are confronted by facts that directly contradict their reckless assertions, and falsify their rash assumptions, but they only shift their ground, and repeat in another form the story to their own shame. It is unpatriotic and untrue to represent the people of Canada as poverty stricken, or unable to compare favorably with their neighbors in the United States, and yet this seems to be the stock in trade of the Commercial Unionist. This is the text upon which he founds every sermon, and no matter what the argument, or how the sermon is divided, the application always points in one direction, and that is annexation.

It is unpatriotic and untrue to represent the people of Canada as clamouring for a closer commercial intercourse with the people of the United States, and as willing to submit to any

sacrifice to bring it about. We have the highest respect for our American neighbors, we want to live upon the most friendly terms with them. We know that along an extended line of frontier we can interchange products to the advantage of both people, and if a treaty can be arranged that will be mutually advantageous to both nations without a surrender of independence on the part of the weaker power, it will meet with the cordial support of every Canadian in the land. But we will make no concession of our independence. "We will buy with our American neighbors, sell with them, talk with them, walk with them" interchange commodities with them, but we won't change our flag for them, and we won't be bluffed by them into the surrender of any of the rights and privileges we enjoy as an independent nation.

Perhaps the meanest, the most despicable, the most cowardly argument ever addressed to a spirited people, is that which is addressed to Canadians, when they are urged to adopt Commercial Union as the only settlement of our fishery disputes. No Canadian, with the backbone of a mackerel, would suggest a settlement so humiliating to the manhood of the nation. We may have disputes with our powerful neighbors, and sometimes they may be urged to take advantage of our weakness in unduly pressing their claims, but they are too spirited themselves to have anything but contempt for the cowardly cravens who would yield their rights, rather than dare to assert them. Talk about retaliation, it has been tried before to-day, and has proved a miserable failure. While we wish to have the freest possible intercourse with the United States, we know that we can do without them just as well as they can do without us! nay better, for we have commodities which they must have, no matter what tariff walls are erected, and our people are not all such fools as to accept the new doctrine of the Commercial Unionist, and believe that Customs dues come out of the pockets of those who sell. Our duty as Canadians is to guard our own. We have rich markets for farm products that are eagerly coveted by American farmers, and the apostles of the new creed would have us throw them open to the world. We have everywhere springing up around us industries, young and vigorous, that give employment to our people, and keep the wealth of the nation for circulation in our own country. And Commercial Union would crush these industries, and scatter the wealth to build up the industries of another people, and give employment to our competitors abroad. We are rich in river, and mine, and forest, and field, and have a brilliant future before us, if only Canadians to themselves be true, and reject the craven counsels of Commercial Unionists, who would sell their country for a mess of pottage.

POST OFFICE SAVINGS BANK, CANADA.

Post Office Savings Banks in Ontario and Quebec are open daily for the receipt and repayment of deposits, during the ordinary hours of Post Office business.

The direct security of the Dominion is given by the Statute for all deposits made.

Any person may have a deposit account, and may deposit yearly any number of dollars, from \$1 up to \$300, or more with the permission of the Postmaster-General.

Deposits may be made by married women, and deposits so made, or made by women who shall afterwards marry, will be repaid to any such woman.

Deposits for children under 10 yrs of age may be made—

Firstly—by a parent or friend as trustee for the child, in which case the deposits can be withdrawn by the trustee until the child shall attain the age of ten years, after which time repayment will be made only on the joint receipts of both trustee and child.

Secondly—in the child's own name—and, if so deposited, repayment will not be made until the child shall attain the age of ten years.

A depositor in any of the Savings Bank Post Offices may continue his deposits at any other of such offices, without notice or change of Pass Book, and can withdraw money at that Savings Bank Office which is most convenient to him.

Each depositor is supplied with a Pass Book, which is to be produced to the Postmaster every time the depositor pays in or withdraws money, and the same

paid in or withdrawn are entered therein by the Postmaster receiving or paying the same.

Each depositor's account is kept in the Postmaster-General's office, in Ottawa, and in addition to the Postmaster's receipt in the Pass Book, a direct acknowledgment from the Postmaster-General for each sum paid in is sent to the depositor. If this acknowledgment does not reach the depositor within ten days from the date of his deposit, he must apply immediately to the Postmaster-General, by letter, being careful to give his address, and, if necessary, write again, because the Postmaster's receipt or entry in the Pass Book is not sufficient without the further receipt for the money from Ottawa.

Every depositor must send his book once a year, viz., on the anniversary of his first deposit, for comparison with the books of the Department, and for insertion of interest. The book will be returned to him by next mail. At no other time should a depositor suffer his book to be out of his own possession.

When a depositor wishes to withdraw money, he can do so by applying to the Postmaster-General, who will send him by return mail a cheque for the amount, payable at whatever Savings Bank Post Office the depositor may have named in his application.

Interest at the rate of 4 per cent. per annum is allowed on deposits, and the interest is added to the principal on the 30th June in each year.

COUNTY AND JUDICIAL OFFICERS — ONTARIO, 1888.

AREA OF CANADA.

The area of Canada is estimated to contain 3,610,257 square miles. It is the largest of all the British possessions, embracing very nearly one-half of the whole Empire. The continent of Australia is the next largest, having an area of 2,944,628, and the area of Tasmania and New Zealand added to this, makes the total area of

the Australasian Colonies 3,075,030, or 535,227 square miles less than that of Canada. The total area of the British Empire is 7,999,617 square miles. The combined area therefore of Canada and the Australasian Colonies comprises very nearly seven-eighths of the whole Empire.

THE LAW OF MARRIAGE.

The law as to the solemnization of marriages is contained in the Revised Statutes of Ontario, Chapter 124, which provides for the solemnization of a marriage by any minister or clergyman of every church and religious denomination, duly appointed or ordained according to the rights and ceremonies of the church or denomination to which they respectively belong, resident in Ontario; but no such minister or clergyman shall celebrate the ceremony unless duly authorized so to do by license under the hand and seal of the Lieutenant-Governor, or by a certificate under the Act, or unless the intention of the two persons to intermarry has been proclaimed once openly and in an audible voice either in the church, chapel, or meeting house in which one of the parties has been in the habit of attending worship, or with which the minister or clergyman who performs the ceremony is connected, and in the local municipality, parish, or charge where one of the parties has for the space of fifteen days immediately preceding had his or her usual place of abode, such proclamation to be on a Sunday, immediately after the service begins, or after it ends, or at some intermediate part of the service.

Section 3 of the Act provides for the substitution of a certificate instead of the usual marriage license. Such license or certificate shall be issued from the office of the Provincial Secretary, and shall be furnished to parties requiring the same by such persons as the Lieutenant-Governor in Council may name for that purpose; and unauthorised persons issuing any such license or certificate for the solemnization of marriage shall forfeit the sum of \$100 for every license so issued. This does not, however, apply to the case where a deputy has been appointed with the approval in writing of the mayor or reeve of the city, township, or incorporated village wherein he resides, when the issuer is prevented by illness, or unavoidable accident, or temporary absence from acting himself. Section 7 gives him authority to appoint a deputy to act in his absence, who while so acting shall possess the powers and privileges of the issuer appointing him.

Before any license or certificate is granted by any is-

suer, or deputy issuer, one of the parties to the intended marriage shall personally make an affidavit, stating (*a*) the county or district wherein the marriage shall be solemnized; (*b*) that he or she believes that there is no affinity, consanguinity, pre-contract, or other lawful cause or legal impediment to bar or hinder the solemnization of the marriage; (*c*) that one of the parties has for the space of fifteen days immediately preceding the issue of the certificate or license had his or her usual place of abode within the county or district in which the marriage is to be solemnized; or should the place for its solemnization be not that in which either of the parties has for the space of fifteen days immediately preceding the issue of the license or certificate had his or her usual place of abode, that the reason for procuring the marriage to be solemnized in such place is not in order to evade due publicity or for any other improper purpose.

Then, in case either of the parties (not being a widower or widow) is under the age of twenty-one years, the affidavit shall further state that the consent of the person whose consent to the marriage is required by law has been obtained thereto. If there is no person having authority to give such consent, then upon oath made to that effect by the party requiring the license or certificate, it shall be lawful to grant a license or certificate notwithstanding the absence of any such consent. Should the issuer have personal knowledge, or reason to suspect that the affidavit is untrue, he shall not issue a license or certificate. The father, if living, of any person under the age of twenty-one (not being a widower or widow), or if the father is dead, the guardian or guardians of the person so under age, or one of the guardians, if there are more than one; or in case there is no such guardian, then the mother of the minor, if the mother is not married, shall have authority to give consent to the marriage.

Every clergyman or minister who celebrates a marriage shall, if required at the time of the marriage by either of the parties thereto, give a certificate of the marriage under his hand, for which he may demand twenty-five cents from the person requiring it.

LEGAL AND JUDICIARY.

SUPREME COURT OF THE DOMINION.

The Supreme Court, as a high Court of Appeal, constituted by Dominion Statute, 38 Vic., cap. 2, assented to 8th April, 1875, is composed of a Chief Justice and five Puisne Judges, and has appellate, civil and criminal jurisdiction within and throughout the Dominion of Canada. The Judges reside at Ottawa, where the Supreme Courts holds annually three Sessions—the first beginning on the third Tuesday in February, the second on the first Tuesday in May, and the third on the fourth Tuesday in October. The Exchequer Court, presided over by the same Judges, possesses concurrent original jurisdiction in the Dominion in all cases in which it is sought to enforce any law relating to the revenue, and exclusive original jurisdiction in all cases in which demand is made or relief sought in respect of a suit or action of the Court of Exchequer on its revenue side against the Crown, or any officer of the Crown.

MINISTER OF JUSTICE AND ATTORNEY-GENERAL FOR THE DOMINION OF CANADA.—Hon. J. S. D. Thompson.

Hon. Sir William Johnston Ritchie, Knt., Chief Justice.
Hon. Samuel Henry Strong, Puisne Judge.
Hon. Telesphore Fournier, Puisne Judge.
Hon. William Alexander Henry, Puisne Judge.
Hon. Henry Elzear Taschereau, Puisne Judge.
Hon. John Wellington Gwynne, Puisne Judge.

THE EXCHEQUER COURT OF CANADA.

Hon. Geo. W. Burbridge, Judge of the Court.
Q. Audette, Esq., Registrar.

THE LAW SOCIETY OF ONTARIO.

The Law Society was first established in 1797, by the Act 37, Geo. III., c. 13, which enabled the then practitioners of the law to form themselves into a society, and make rules for its government. By the Act of 1822, 2 Geo. IV., c. 5, "the Treasurers and Benchers of the Law Society" were formally incorporated; and under these and other statutes the Society has continued to be governed by a Board of Benchers, in the same manner as the various Law Societies of England. By Revised Statutes of Ontario, c. 138, the Benchers theretofore appointed, from time to time, by their own body, are made, exclusive of *ex-officio* members, elective by the Bar, the *ex-officio* consisting of the Attorney-General of the Dominion for the time being, if a member of the Bar of Ontario, and all members of the Bar of Ontario who have at any time held the office of Attorney-General of the Dominion or of Ontario, or of Attorney or Solicitor-General of the former Province of Upper Canada, and any retired Judge of the Superior Courts of Law or Equity of Ontario; the *elective*, thirty in number, being chosen by the ballot, for a term of five years, by the members of the Bar, in manner prescribed by the Act. Vacancies during the term are filled by the remaining Benchers. On the first day of Easter Term, annually, the Benchers appoint one of their body to be Treasurer, who is also President of the Society. The Benchers sit in Convocation every term for the call of Barristers, the admission of Attorneys and Solicitors to Practice, and of Students to enter the Society, the fees paid by whom form the revenue of the Society. Osgoode Hall, appropriately named after the first Chief Justice, is the Ontario "Inn of Court," or head-quarters of the Society, in which is provided accommodation for the Court of Appeal and Courts of Equity, and for the sittings in term of the Superior Courts; with a valuable and extensive library.

MARITIME COURT OF ONTARIO—Constituted by Dominion Statute, 40 Vic., cap. 21, as a Superior Court of Maritime Jurisdiction; is composed of one Judge for the whole Province, and Surrogate Judges for certain localities appointed by the Governor in Council, are invested with such powers as may be conferred on them by their commission. The Maritime Court is a Superior Court of Record, having, with some exceptions mentioned in the Act, the like rights and remedies in all matters, including cases of Contract and Tort, and proceedings *in rem* and *in personam*, arising out of or connected with navigation, shipping, trade or commerce, on any river, lake, canal, or inland water, of which the whole or part is in the Province of Ontario, at any existing Vice-Admiralty Court would have if its process extended to the Province of Ontario. The Sittings of the Court and in Chambers are fixed and regulated by the Judge and Surrogate Judges at such times as they shall think fit and necessary for the due administration of justice. *Judge for the whole Province*—Hon. John Boyd. *Registrar*—John Bruce. *Marshal*—William Boyd.

REPORTERS—*Editor*—James F. Smith, Q.C. *Reporters in Queen's Bench*—S. J. Vankoughnet. *Reporter in Common Pleas*—G. F. Harman. *Reporters in Chancery*—G. A. Boomer, A. H. F. Lefroy. *Reporter Court of Appeal*—A. Grant. *In Chambers*—T. T. Rolph. *Distributor of Law Stamps*—W. W. Baldwin.

HEIRS AND DEVISES COURT—Commissioners, the Judges of the Superior Courts, and such other persons as may be appointed by commission under the Great Seal. Their duties are to determine claims to lands in Ontario, for which no patent has issued from the Crown in favour of the proper claimants, whether as heirs, devisees, or assignees. Sittings at Toronto, first Monday in January and July in each year. *Clerk of Commissioners*—W. B. Howard.

COURTS FOR THE TRIAL OF CONTESTED ELECTIONS—The nature of these courts is sufficiently indicated in their title. In respect to elections for the House of Commons of Canada, the Superior Courts, by one of their Judges appointed in that behalf, are invested with special jurisdiction for the trial of contested elections, and appeal lies to the Supreme Court at Ottawa. In respect to

elections for the Local Legislature of Ontario, the Judges of the Court of Appeal and of the Superior Courts of Law and Equity meet annually in Michaelmas Term and severally select, by a majority of votes, a Judge of their respective Courts to be placed on the rota for the trial of election petitions. In the case of death or the illness of a Judge so chosen, the Court of which he is a member meet and elect another Judge. Trials involving corrupt practices are presided over by two Judges, otherwise a single judge presides, and an appeal lies to the Court of Appeal of the Province.

COUNTY COURTS—Presided over by a resident Judge in each county, assisted in some counties by a Deputy or Junior Judge. Their jurisdiction extends to all personal actions where the debt or damages claimed do not exceed \$200; and to all suits relating to debt, covenant or contract, where the amount is ascertained by the acts of the parties or signature of the defendant, to \$400; and to all bail bonds and recognizances of bail given in the County Court, to any amount; but not to cases involving the title to lands, validity of wills, or actions for libel, slander, crim. con., or seduction. An appeal lies to the Court of Appeal of Ontario.

COUNTY COURT Sittings and Court of General Sessions.—The County Judge in each county holds a sitting of his Court and a Court of General Sessions in his county semi-annually on the second Tuesday in June and December, except in the county of York, in which county said Court is held four times, commencing on the first Tuesday in December and March, and the second Tuesday in May and September, the latter Courts for the trial of cases of felony and misdemeanor, but treason and capital felonies are exempted from their jurisdiction. The Judge may also, in his discretion, hold additional sittings at such times as may be deemed expedient to expedite business, but only for the trial of issues of fact without a jury.

COUNTY JUDGES' CRIMINAL COURT.—Persons committed to jail for trial, on charge of being guilty of any offence for which they may be tried at a Court of General Sessions may, with their own consent, and subject to the provisions of the Act in that behalf, be forthwith tried by the Judge of the County Court and General Sessions without a jury, and if convicted, be sentenced by the said Judge; and the Judge sitting on any such trial for all the purposes thereof, is constituted a Court of Record, and the record in any such case shall be filed among the records of the Court of General Sessions last mentioned.

COURTS OF REVISION.—The County Judges hold annually Courts of final revision of the Assessment Rolls of each Municipality, being in the light of Courts of Appeal from the first Court of Revision held by the Municipality; and also Courts for the Revision of the Voters' Lists for Provincial Elections. The Voters' Lists for Dominion Elections are now settled by Revising Barristers under the Act of 1885.

SURROGATE COURTS.—The jurisdiction of these Courts relates to all testamentary matters and causes, and to the granting and revoking of probate of wills, and letters of administration of the effects of deceased persons having estate or effect in Ontario, and all matters arising out of or connected with the grant or revocation of probate or administration, subject to an appeal to the Chancery Division. The County Judges are also Judges of the Surrogate Courts. *Chief Surrogate Clerk at Toronto*—Sir J. L. Robinson, Bart. *Assistant*—F. A. Robinson.

DIVISION COURTS, for the summary disposal of cases by the presiding Judge, being the County Judge or his Deputy, or any Barrister appointed to hold the same; but a jury of five persons may be demanded in certain cases. Their jurisdiction extends to actions of debt or contract where the balance claimed is over \$100 and under \$200 and the original amount was ascertained by the signature of the defendant, and to \$100 in other cases of debt, subject to an appeal to the Court of Appeal; but the sum of the account to be gone into cannot exceed \$400; injuries or torts to personal chattels amounting to \$60; and personal actions to that amount, if not excepted from their jurisdiction; but not to actions for gambling debts, liquors drunk in a tavern, or notes of hand given therefor, ejectment, title to land, &c., or any toll, custom or franchise, will or settlement, malicious prosecution, libel, slander, crim. con., seduction or breach of promise, or actions against a J. P. for anything done by him in the execution of his office, if he objects to it. Each Judicial District is divided into Court Divisions, and Courts are

held once in two months in each Division, or oftener at the discretion of the Judge. The Divisions are established by the Courts of General Sessions, and in certain cases by the Judges.

BOARD OF COUNTY JUDGES—Chairman—J. R. Gowan, late sen. Judge County Simcoe. Members—S. J. Jones, County Brant; D. J. Hughes, County Elgin; James Daniell, Counties Prescott and Russell; and J. S. Sinclair, County Wentworth.

INSPECTOR OF LOCAL OFFICES—M. B. Jackson.

OFFICIAL REFEREES (EX OFFICIO)—The Master in Ordinary of the Superior Court, the Registrar of the Queen's Bench Division, the Registrar of the Common Pleas Division, the Referee in Chambers (vacant), the Accountant, the Inspector of Titles, and the Referee of Titles.

CLERK OF ASSIZE—High Court of Justice, G. B. Nicol, Toronto.

DEPUTY CLERKS OF THE CROWN—The Clerks of the County Courts will be *ex officio* Deputy Clerks of the Crown and Pleas of their several Counties as the present incumbents vacate by death or otherwise.

CLERK OF THE PROCESS—For sealing and issuing Writs of Summons and other Writs in the Queen's Bench, Chancery and Common Pleas Divisions (alternately), W. B. Heward. **Assistant**—C. A. Stewart.

INSPECTOR OF PUBLIC OFFICES—John Winchester. **Clerk**—W. O'Neill.

Sittings of the Courts.

COURT OF APPEAL—This Court holds its sittings at such time and for such periods as the Judges shall, from time to time, deem necessary or convenient for the speedy dispatch of business, the times now fixed being the first Tuesday in March and September, and the second Tuesday in January, May and November; notice of the holding of such sittings being given according to the usual practice.

SITTINGS OF THE QUEEN'S BENCH AND COMMON PLEAS DIVISIONS—Hilary begins first Monday in February, and ends Saturday of the ensuing week; Easter begins third Monday in May, and ends Saturday of the second week thereafter; Michaelmas begins third Monday in November and ends Saturday of the second week thereafter. Trinity Term begins on the Monday after the 21st August, and ends on Saturday of the following week, but may be dispensed with by order of Court. The Queen's Bench and Common Plea Divisions have power also, at their discretion, to hold sittings in bancs in time of vacation (except long vacation), by virtue of a rule or order of the Court, respectively to be made in or out of term, for the hearing of such special cases or rules for new trials as shall be named in a list to be attached to any such rule or order, and for giving of judgments in cases previously argued, and for disposing of such other business as the Court in its discretion shall see fit; and one of the Judges of either of the said Divisions sits in open Court on Tuesday and Friday of every week, as well in a *out of Term*, except during vacation, for the purpose of disposing of all Court business which may be transacted by a single Judge.

CHANCERY SITTINGS—*Sittings for the hearing of causes, including examination of witnesses, are held twice in each year, at Toronto and in Circuit, the places and dates being previously arranged by the Judges. Sittings for the rehearing of cases are held on the 3rd Thursday in February, the 1st Thursday in August, and the first Thursday in December. The Court sits every week, except during vacation, for the dispatch of business, in the following order: Monday, chamber business; Tuesday, motions; Wednesday, motions for judgment, further directions, petitions, and demurrers; Thursday, appeals from Master's reports.*

LONG VACATION extends from the 1st of July to the 1st of September, both inclusive. In Chancery, there is

also a vacation from the 24th December to 6th January, both inclusive.

COUNTY COURT TERMS—The several County Courts in Ontario hold four sittings in each year, commencing respectively on the first Monday in the months of January, April, July, and October, except the County of York, which commences on the first Monday in January and April, and the second Monday in June and October, and ending on the Saturday of the same week.

Circuits of the Courts.

LAW CIRCUITS—*Sittings for Hearing of Actions*.—Courts of Oyer and Terminer and General Gaol Delivery are held twice a year in each County or union of Counties, in the vacation between Hilary and Easter Terms, and between that period of the vacation after the 21st of August and Michaelmas Term, except the Counties of York and Wentworth, in each of which Counties there is held a third such Court in every year, in the vacation between Michaelmas and Hilary Terms; and in the County of York there is held a fourth such Court, between Easter Term and the first day of July. The sittings for hearing of actions may, in the discretion of the Judges, be held separate and apart from the Courts of Oyer and Terminer, and General Gaol Delivery, and the Assizes for any County are not put an end to by the commencement of Term, but may continue and be held during Term, subject to special rules in such case for moving against the verdict or for new trials. The places and dates being previously arranged by the judges.

The Courts in each Circuit are presided over by the Chancellor or one of the Members of the Chancery Division, or by a retired or present Justice of the High Court or of the Court of Appeal, or by a Judge of a County Court, or by some one of Her Majesty's Counsel learned in the law, requested by the Chancellor or one of the Justices to act in that behalf.

MASTER OF TITLES, under Land Titles Act, 1885 (Torrens Act), J. G. Scott, Q.C. **Clerks**, W. B. McTavish and H. D. Sinclair

EVERY FARMER HIS OWN MILLER.

The Best is the Cheapest.

We have had 32 Years' Experience.

Use the **Halladay Standard Geared Wind Mill, I-X-L Iron Feed Mill**, and do your grinding at home, thus saving toil and teaming to and from the Grist Mill. This work can be done rainy, windy days, when out-door work is suspended on the farm. The same Mill will run your cutting-box, saw wood, run churn and grind-stone, pump water, etc.

We manufacture the **Halladay Standard Geared and Pumping Wind Mills, I-X-L Iron Feed Mills**, Saw Tables, Standard Haying Tools, consisting of Anti-Friction, Reversible, Swivel and Rod Hay Carriers, Harpoon and Grappling Horse, Hay Forks, Pulleys and Floor Hooks. Also a full line of Tanks, Tank Fixtures and prices. Send for Catalogue and prices.

WALKDEN'S

CELEBRATED WRITING INKS

Walkden's Blue-Black Writing Fluid. Warranted made from the purest materials, is especially adapted for general Commercial use. It writes at first a splendid Blue Colour, and turns to an intense and very durable Black. It does not get thick or deposit sediment, and is the best Ink for all Climates.

Walkden's Blue-Black Copying Fluid. Flows freely and pleasantly from the pen. Will give three good copies at one impression, or one a long time after writing. It may be used for all purposes.

Walkden's Brilliant Scarlet Ink. A very beautiful preparation, which does not penetrate the paper like some Red Inks. It is free from Acid, and may be used with Steel Pens.

MELANYL.

A CHEMICAL MARKING INK. REQUIRES NO HEAT.

In One Bottle, Ready for Use.

The Simplest and Best Marking Ink in the World. Absolutely Indelible. Warranted Harmless to any Fabric.

HAVING been appointed SOLE AGENTS IN CANADA for WALKDEN'S
CELEBRATED WRITING INKS. we beg to draw attention to a few facts relative to the merits and manufacture of these well-known INKS.

MESSRS. COOPER & CO.

5, 6 & 7 SHOE LANE, - - LONDON, ENGLAND,

are sole proprietors and manufacturers of Walkden's Inks which have been used and approved throughout the world during the past 150 years, the factory having been established in 1735, and still these Inks maintain their old reputation and are adapted to the wants of all classes. We felt, therefore, in consenting to become sole agents for Messrs. Cooper & Co., that we could, with perfect confidence, present to the trade an Ink superior in quality, of good color, permanent, and at a price which will compare favorably with that of any other manufacturer.

A GREAT DISCOVERY BY PROF. VERNOT.

COMPOUND ELECTRICITY, produced in a powerful, rich, mild current, marvellously modified by a new invention, and made invaluable for the cure of disease adapted to all our improved batteries for office and home use.

The Improved Batteries from \$25 to \$50.

Others at various low prices.

A book of Instruction with the Battery.

Price - \$25.

A Work on Nervous Diseases, their Cause and Cure. Price, 25c. in stamps.

Our new Combination baths, Galvanic, Vapor, Sulphur, etc., are a great improvement in treating many diseases, deriving the benefit received at the best Mineral Springs, with Electricity combined. See circular. For the treatment of Nervous, Chronic, and Obscure Diseases, not cured by other kinds of treatment (nor by the unskilled and inexperienced). Diseases that follow nervous exhaustion (a lack of vitality or nerve force from various causes, as over brain work, over physical work, excess, abnormal secretions and excretions, producing various phases of disease and suffering in mind and body. Those who wish the treatment at home may have it by ordering one of Prof. Vernoy's Improved Family Batteries, and follow the instructions given with it, which are plain and simple. The cures made with these Improved Batteries scientifically used, according to the new system practiced by Prof. Vernoy, are not limited to any particular class of diseases. It is wonderful to see how such radical changes are so quietly and agreeably made. Acute diseases are often cured as by magic in one or two applications. Female diseases, hopeless cases by other means, displacements and other weaknesses—nervous debility (abnormal evacuations in either sex) permanently cured after years of suffering with other kinds of treatment. Neuralgia, Rheumatism, Catarrh, head, lung, heart, liver, kidney, and other organic troubles and derangements of the system changed to a healthy state as readily as the hard frozen earth is mellowed by the genial rays of the sun by Nature's means, in harmony with her fixed laws. Bad cases thus cured will inform you how wonderful the cure is. Address given if you wish it. See the Electric Age for testimonials and references, such as Hon. T. B. Pardee, Sarnia; Chas. Stark, Esq., Merchant, 52 Church St., Toronto; Rev. G. M. Milligan, 384 Sherbourne St., Toronto; Rev. Dr. Kellogg, Pastor St. James' Square Presbyterian Church, Toronto; Rev. J. H.
